To Whom It May Concern:

As Sheriff of one of the largest counties in the State of Arkansas, it has become necessary on many occasions to attempt to reduce our jail population in an efficient and economical manner.

One of the most effective resources that we have experienced is the house arrest program provided by E-Cell, Inc. They are dependable and thorough. They not only provide the electronic monitoring equipment, but they actually do all work involved in the program. My personnel do not have to do any type of monitoring, installing or equipment maintenance. E-Cell does it all.

I am very pleased with their service and would not hesitate to recommend E-Cell as a house arrest provider to any agency faced with today's overcrowding issues.

Very truly yours,
